Rock Solid Images (AIM: RSI)

**Award of WISE reprocessing project, offshore South East Asia
Appointment of Dr. James Tomlinson as V.P. WISE Products and Services**

Rock Solid Images (RSI), announced today that it has been awarded a project to re-process and integrate seismic, CSEM and well data by a South East Asia National Oil Company with a project value of \$1.1 million. The project will start immediately and complete within approximately four months.

RSI also announced the appointment, with immediate effect, of Dr. James Tomlinson as Vice President of WISE Products and Services.

Stated Richard Cooper, CEO of RSI:

“We are extremely pleased to be selected to perform this project to re-process and integrate seismic, CSEM and well data. Our WISE products and services are unique in the upstream oil and gas industry. WISE provides our clients with a powerful de-risking tool, which combines the strengths of seismic, well and CSEM data within a unified interpretation environment.

We are also very pleased to welcome Dr. James Tomlinson to the team at RSI. Dr. Tomlinson has a strong background in electromagnetics having previously worked for OHM and emgs. He shares our passion for data integration and we look forward to working with him to help drive CSEM adoption from both a service and technology perspective.”
