RSI Strengthens Position in Norway

RSI is pleased to announce the continued expansion of its European presence through the appointment of Paul Doyle to the role of Business Development Manager Norway and the opening of an office in Stavanger.

Paul has over 35 years' experience of geophysical services with roles ranging from seismic processing geophysicist to VP Geosolutions and is pleased to be returning to his home town of Stavanger. The Stavanger office will assist RSI to provide closer support to their Norwegian client base where they have a strength in depth of regional interactive rock physics studies plus deep experience of WISE integrated reservoir prediction projects.

James Tomlinson, RSI's General Manager EAME commented: "Norway is a key market for RSI and we are delighted that Paul has taken on the Norwegian Business Development manager role. We believe this enhanced focus on Norway will further improve our service and support to our Norwegian clients. Paul's extensive technical and commercial experience is a perfect match for RSI's continued development in Norway."

ABOUT [RSI](http://www.rocksolidimages.com):

RSI is an independent geoscience consulting firm offering quantitative reservoir characterization with the goal of reducing exploration drilling risk and optimizing reservoir appraisal and development plans. The Company is an industry leader in the interpretation and integration of seismic data with well log, CSEM and MT data, and uses advanced rock physics methods combined with sophisticated geologic models to deliver robust and reliable predictions of reservoir geometries and properties to our customers.
